*Elevating Spaces
with Nature's Purity.*

The expansive 1200x1800mm tiles redefine interior and exterior design by offering a flawless, uninterrupted look that transforms spaces into elegant, cohesive masterpieces. Their large size reduces the need for excessive grout lines, providing a smooth and luxurious finish that enhances the overall aesthetic.

*Elevate Your
Living Experience*

GLAZED VITRIFIED TILES

Tile Body

The finest quality raw materials make up the resilient and robust tile body of tiles. The raw materials are ethically sourced and sustainably processed.

Engobe Layer

A highly opacious, fusible, and permeable engobe layer makes the second layer of the tiles. The layer makes the tiles highly resistant to water absorption for longevity.

Glaze Layer

A high-quality glaze coating is added to the engobe layer of the tiles giving the tile properties of texture and shine and making them ready for design.

High Pigment Digital Printing Ink

The surfaces get their unique and versatile properties of the design, color, and more in this stage where digital printing is done on the glaze with high pigment ink for excellent results.

Abrasion-resistant Glaze Layer

The most exceptional aspect of surfaces is their high abrasion-resistant glaze layer which protects the tile's aesthetics, and properties and enhances the functionality of the tiles to a greater extent.

*Luxurious Designs for
Modern Living*

Our tiles are a perfect blend of luxury, durability, and innovation. Crafted with precision, each tile reflects unparalleled quality and design excellence. With a 1200x1800mm size, our tiles ensure seamless aesthetics, minimal joints, and a modern, spacious appeal.

Technical Features :-

Easy To Maintain

-Our Easy-to-Maintain tiles are designed for durability, convenience, and long-term performance.

Water Proof

-Our Water Proof tiles are specially designed to resist water infiltration, ensuring superior protection against moisture-related damage.

Prevents Bacterial Growth

-Our Anti-Bacterial tiles are designed to prevent bacterial growth, ensuring a hygienic and safe environment.

Non-slip

-Our Non-Slip tiles are designed to provide enhanced traction and safety in wet and high-traffic areas.

Fire Resistant

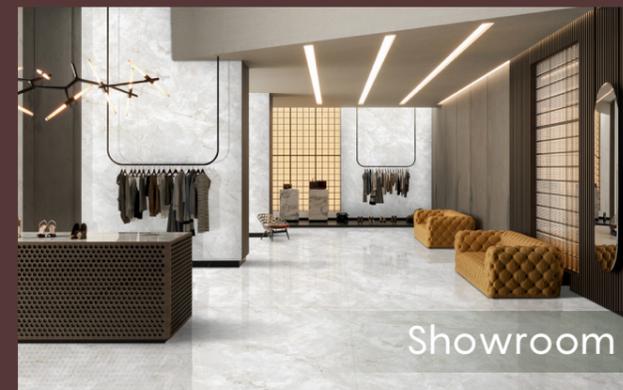

-Our Fire-Resistant tiles are specially engineered to withstand high temperatures and prevent flame spread, making them ideal for both residential and industrial applications.

Resistant To Acids

-Our Acid-Resistant tiles are specifically designed to withstand exposure to harsh acids, alkalis, and chemicals, making them ideal for industrial, commercial, & laboratory environments.

SUPER WHITE GLOSSY

1200x1800mm

The Super White Glossy finish takes refinement to the next level with its immaculate white surface and ultra-glossy sheen. Designed to exude purity and sophistication, these tiles brighten up spaces with their crisp, clean aesthetic. The large 1200x1800mm format enhances the seamless appearance, reducing grout lines for a sleek, uninterrupted look. Whether used in luxury homes, hotels, or modern commercial interiors, Super White Glossy tiles bring a pristine and minimalist charm that never goes out of style.

Technical Features :-

HEALTH

Prevents Bacterial Growth

-Our Anti-Bacterial tiles are designed to prevent bacterial growth, ensuring a hygienic and safe environment.

UV Resistant

-Our UV-Resistant tiles are designed to maintain their color, strength, and finish even under prolonged sun exposure.

Zero Vocs

Porcelain tiles are intrinsically Inorganic and do not emit volatile organic compounds (VOC).

SAFETY

Resistant To Chemicals

-Our Chemical-Resistant tiles are specifically designed to withstand exposure to harsh chemicals, acids, and alkalis, making them ideal for industrial, commercial, and laboratory environments.

Heat Resistant

-Our Heat-Resistant tiles are engineered to withstand high temperatures, ensuring durability and structural integrity even in extreme heat conditions.

Dimensional Stability

-Our Dimensional Stability tiles are engineered for precision and durability, ensuring minimal expansion, contraction, or warping over time.

ENVIRONMENT

Ecological

-Our Ecological tiles are designed with sustainability in mind, offering an environmentally friendly flooring and wall solution without compromising durability or aesthetics.

Frost Resistant

-Our Frost-Resistant tiles are engineered to withstand extreme cold temperatures and freeze-thaw cycles without cracking or damage.

Recycle & Re-use

Porcelain tiles are made with recycled materials, last a long time, and can be re-used because they retain their original appearance.
